In re Application of Karim Esmailzadeh Application No. 09/967,306

: ORDER TO : SHOW CAUSE

Filed: September 28, 2001

Practitioner Docket No.: 33208.5

This is a show cause order based on the expiration of U.S. Patent No. 6,170,514, for which patent the present application requests reissue.

BACKGROUND

- 1. Reissue application No. 09/967,306 ("the '306 reissue application") was filed on September 28, 2001, for reissue of U.S. Patent No. 6,170,514 ("the '514 patent") issued January 9, 2001.
- 2. The Image File Wrapper record for the '306 reissue application reveals that a paper titled "Response To Office Communication" was filed on October 1, 2007, and that the prosecution of the application is not closed.
- 3. The Office's financial records reveal that the 7.5 year maintenance fee due by January 9, 2009 (the end of the maintenance fee grace period), was not paid.
- 4. The '514 patent expired at midnight on January 9, 2009, for failure to pay the 7.5 year maintenance fee due.¹ Notice of the expiration of the '514 patent for failure to pay the 7.5 year maintenance fee was published on March 3, 2009, in the Official Gazette.²

ORDER TO SHOW CAUSE

As pointed out above, the '306 reissue application is for reissue of the '514 patent, and the '514 patent has expired for failure to pay the 7.5 year maintenance fee. A notice of the expiration of the '514 patent was published in the *Official Gazette*. Because the '514 patent expired for failure to pay the second maintenance fee, the Director of the USPTO

See: MPEP § 2506, third paragraph.

no longer has the authority under 35 U.S.C. § 251 to reissue the '514 patent. See *In re Morgan*, 990 F.2d 1230, 26 USPQ2d 1392 (Fed. Cir. 1993). As stated in *Morgan*,

"The language of section 251 is unambiguous: the Commissioner has authority to reissue a patent only 'for the unexpired part of the term of the original patent.' Thus, when Morgan's original patent expired on August 19, 1992, the Commissioner was divested of his reissue authority because there no longer was an unexpired term of the patent for which Morgan's patent could be reissued. Morgan's appeal thus became moot." [990 F.2d at 1231, 26 USPQ2d at 1393; emphasis added]

Because the Director no longer has the authority under 35 U.S.C. § 251 to reissue the '514 patent, the Office intends to terminate the present reissue proceeding, and thereafter hold the '306 reissue application to be an abandoned application.

Applicant is hereby provided with a period of **30 DAYS** from the mailing of this ORDER to show cause why the Office should not terminate the present reissue proceeding.

If applicant proposes to show cause why the present reissue proceeding should not be terminated, applicant's showing must include an explanation of why the proceeding should continue, in spite of the expiration of the original patent.

If applicant makes a showing, the showing will be evaluated as to whether it provides sufficient basis as to why the present reissue proceeding should not be terminated. A failure to respond to this show cause order within the set 30-day period will result in the proceeding being terminated by default. If the present reissue proceeding is terminated, jurisdiction over the present application for reissue of the '514 patent will be returned to Technology Center Art Unit 3753 for processing as an abandoned application.

CONCLUSION

- 1. Applicant is hereby provided with a period of 30 DAYS from the mailing of this ORDER to show cause why the Office should not terminate the present reissue proceeding.
- 2. Failure by applicant to respond to this show cause order within the set 30-day period will result in termination of the present reissue proceeding by default, followed by a mailing of a Notice of Abandonment of the '306 reissue application.
- 3. Jurisdiction over the '306 reissue application is being retained by the Office of Patent Legal Administration, pending a response by the applicant, or the expiration of time for a response.

4. Telephone inquiries related to this decision should be directed to Raul Tamayo, Legal Advisor, at (571) 272-7728.
